

Varsha Bhide

SENIOR INTERACTION DESIGNER

Bengaluru, India | +91 95382 81225 | varsha.bhide@gmail.com | varshaab-cloud.github.io/varshabhhide.github.io

Senior Interaction Designer with 8+ years shaping end-to-end digital experiences across enterprise software — Finance (well versed in the Accounts Payable process), Healthcare, and Content-Services products. I turn complex, high-stakes workflows into intuitive, accessible interactions — with deep strengths in design systems, design tokens, and accessibility-first design.

STRENGTHS

UI & Design Systems at Scale. Polished, consistent interfaces backed by evolving design systems, component libraries, and tokens for scalability and brand coherence.

Prototyping & Validation. Low- to high-fidelity prototypes and assumption testing to cut UX debt and lift usability, adoption, and conversion.

End-to-End UX Ownership. Leading discovery through delivery — UX vision, problem framing, journeys, interaction models, and experience roadmaps aligned to business goals.

Stakeholder Partnership & Influence. Aligning UX strategy with product vision across leadership and cross-functional teams to shape roadmap decisions.

EXPERIENCE

Senior Interaction Designer, OpenText

Content Services · Bengaluru, India · Hybrid

May 2024 – Mar 2026

- Led interaction design for **Vendor Invoice Management (VIM)**, reimagining the application under the *One Invoice* initiative and rebuilding its workflows against SAP Fiori guidelines.
- Used hands-on knowledge of the Accounts Payable process and SAP GUI to simplify dense, data-heavy enterprise screens and drive friction-point reduction.
- Redesigned **Core Signature**, OpenText's e-signature platform — stripping out friction and reimagining key interaction patterns for a smoother signing experience.
- Owned UX discovery, interaction design, prototyping, and usability validation, ensuring designs were evidence-based and aligned with real user needs.
- Partnered closely with Product Managers, Engineering, QA, and Accessibility teams to align UX strategy with technical feasibility, delivery timelines, and business goals.
- Conducted UX audits and design reviews to identify usability gaps, reduce UX debt, and improve consistency across products.

Lead / Senior UI UX Designer, Indegene

Healthcare & pharma R&D services · Remote

Jun 2021 – May 2024

- Became the in-house **design-token expert** (self-taught), leading token integration for a major pharmaceutical client, **GSK (GlaxoSmithKline)**.
- For **Vifor**, built a multi-brand design system with the design-system team; when the brand was later refreshed, led the migration of the entire system to the new visual identity with minimal disruption.
- Delivered a multi-brand design system and **Figma UI library** for **Incyte Pharmaceuticals**.
- Designed pharma-specific UI components and websites focused on user experience.
- Promoted to Lead; set design direction and partnered with product owners on UX enhancements.

PREVIOUS EXPERIENCE

Visual Designer, Safehalo Products · Hybrid

Nov 2017 – Jun 2021

Visual Designer, Harman Connected Services

Jan 2014 – May 2015

Graphic Designer, Wipro Technologies

Jun 2013 – Jan 2014

SKILLS

Design

Interaction Design · UX Design · Design Systems · Design Tokens · Prototyping · Wireframing · Information Architecture · Visual Design

Research

User Research · Usability Testing · User Flows · Journey Mapping · Heuristic Evaluation

Domain

SAP Fiori · Accounts Payable · e-Signature · Enterprise SaaS · Healthcare & Pharma · Content Services

Tools

Figma · Sketch · Adobe XD · Illustrator · After Effects · Premiere Pro · InVision · Claude · Dovetail · Lovable

OTHER SKILLS & LEARNING

AI-Assisted Design

AI-assisted UX & UI design · Generative AI for ideation & workflows · Figma AI / FigJam AI · ChatGPT for UX & design processes · AI-driven UX research synthesis · AI-assisted UX writing & microcopy

Design Systems Engineering

Code-first design systems · Built on Node.js & Tailwind · Three-tier token architecture for consistent, reliable UI across all screens

Accessibility

Accessibility-first design · WCAG-aligned practices · Accessible interaction patterns · Keyboard-only & focus management · Screen reader-aware UX · Colour contrast & visual accessibility · Inclusive design · Accessibility reviews
